

Hello Parents,

As part of our Step Up to Quality review, we are required to formally assess the children in our school-age program twice annually to ensure we are meeting our program philosophy:

“TCEP was founded on the belief that high quality child care and early education benefits the development of all children, as well as our community and families of TCEP.

Therefore we strive to provide a safe, secure, and nurturing learning environment that enhances young children’s:

- Self-esteem and personal value
- Understanding of diversity
- Respect for themselves and others
- Development of self-regulation
- Creativity, imagination, and critical thinking skills “

As part of our assessment, we have set goals for each child that align with our philosophy. As the school year progresses you will be receiving the results of your child’s assessment, showing what your child has learned from the activities and lessons. These results will need to be signed and returned to us, as we cannot meet in person due to social distancing guidelines. Below are the goals that the school-age program will be focussing on:

1. Self-Awareness/Self-management - the ability to calm themselves down and focus their attention
2. Social Awareness - showing empathy and perspective
3. Relationship Skills - being able to collaborate
4. Responsible Decision Making - ability to evaluate options and make effective decisions

Please keep in mind that your child’s results **WILL** be kept confidential. If you have any further questions involving this project, please feel free to contact Michaela Warner at michaela.warner@tippcitykids.org or call us at **(937) 667-8800**.

Thank you!

The following are the goals set for the above-mentioned child for the 2020-2021 school year. This is to confirm that you are in agreeance with the goals that we have chosen.

1. Self-Awareness/Self-management - the ability to calm themselves down and focus their attention
2. Social Awareness - showing empathy and perspective
3. Relationship Skills - being able to collaborate
4. Responsible Decision Making - ability to evaluate options and make effective decisions
